

Healthy Regions Project

Agenda

- Original Idea
- Products & Results
- European Website
- Regional Processes

Original idea

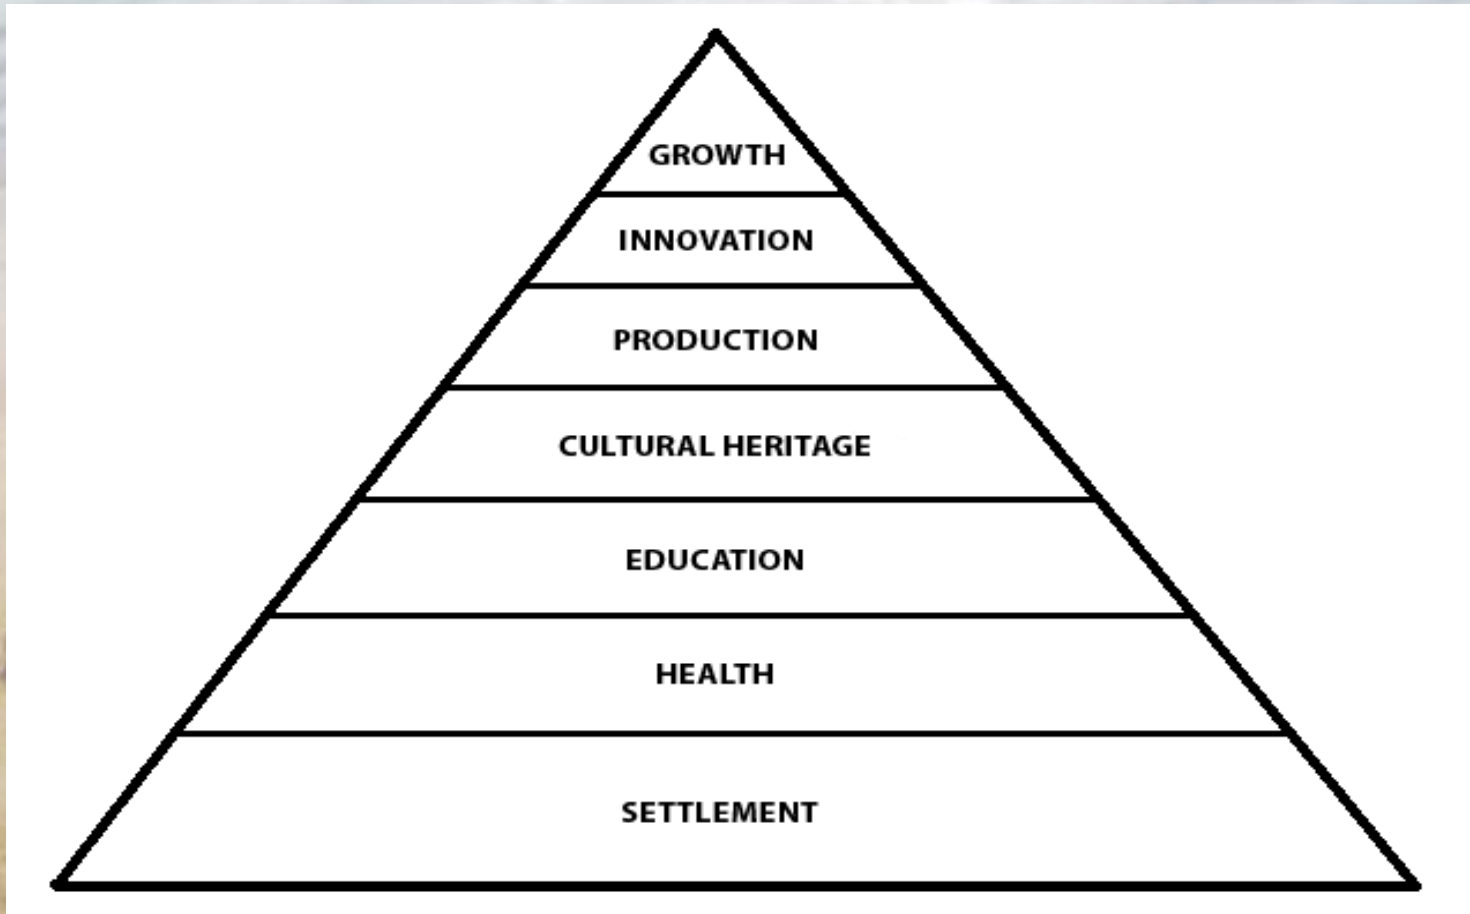

Regional Key Competencies Project (Art 6)

- Strategic view on regional development
- Health as a regional key competence

Healthy Regions Project

- Turning the growth pyramid up side down
- Good health is a prerequisite for economic growth
- Innovation, employment and growth can be created in the health sector if we look at health as an investment
- It is less expensive to prevent than to treat

Growth Pyramide

Overall Idea

”How can we put health on the political agenda”

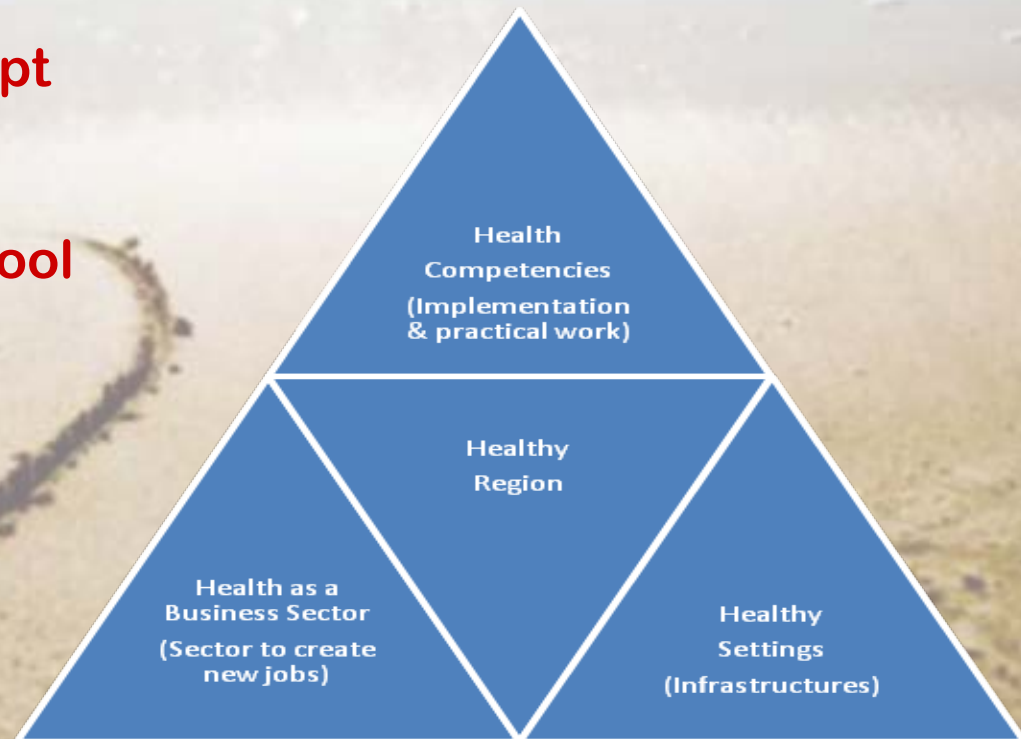

”How can we make health a strategic priority area”

”How can we make policy makers understand that health can be seen as a long term investment and not just a cost because citizens get sick”

Products & Results

Tools development

- Framework Paper (A common frame of understanding)
- Healthy Regions Concept
 - Dialogue Tool
 - Scenario Planning Tool
 - Mapping Tool
 - Traffic Light Matrix
 - Project Catalogue

Products & Results

Regional Processes & Progress

- All regions have worked actively with the tools
- Concrete process results in the regions
- Good practice examples that can inspire all regions all over Europe

Products & Results

Website:

www.healthyregions.eu

**A useful toolbox for other regions
who want to work strategically with health**

Regional Processes

Today's agenda

- Showing how the regions have worked actively with the tools from the project
- Showing how it is important to have a common goal but still work in flexible ways
- Showing how the tools can be useful for others
- Showing how results from our project can be used on European level

Closing remark before we begin

Great project

Great partners

Confidence in each other

Engagement & Participation
